

PROTECT OUR ISLANDS FROM NON-NATIVE PREDATORS

Many UK islands are free from rats, stoats and other non-native predators. If these animals reach our islands, they could decimate vulnerable bird populations by eating eggs and chicks.

Help protect our unique island wildlife!

Vulnerable species include:

Dangerous non-native predators include:

HOW DO NON-NATIVE SPECIES REACH OUR ISLANDS?

Everyone can help!

Are you travelling to or around islands? Make sure you don't take any stowaways with you!

- CHECK YOUR **BOAT**
- CHECK YOUR **CARGO**
- CHECK YOUR **BAGGAGE**

Found signs of a stowaway?

- DON'T TRAVEL TO AN ISLAND**
- DON'T THROW OVERBOARD**
