

BIOSECURITY FOR LIFE

PROTECTING SEABIRDS FROM INVASIVE PREDATORS

At Biosecurity for LIFE we are focused primarily on 41 island special protection areas (SPAs) in the UK that are designated for breeding seabirds.

As indicated on the map, these islands are spread around the coastline of the UK including parts of England, Wales, Scotland and Northern Ireland.

Ailsa Craig Scotland	Ynys Enlli (Bardsey Island) Wales	Pentland Firth Islands Scotland
